## TO SETTLE THE PHILIPPINE WAR.

Various Plans on Foot to  
Treat With the Rebels  
for Settlement.

### A COMMITTEE OF FILIPINOS.

They Will Confer With United States  
Philippine Commission to  
Perfect Some Plan.

### DIFFICULT TO REACH THE REBEL LEADER.

His Attitude Toward Anyone Talking  
Peace is Dangerous, as He Is Se-  
vere on Such That Ask Even  
His Attention.

Manila, April 18.—In an interview  
with General LaGarda he said a com-  
mittee of 23 Filipinos had been appoint-  
ed to confer with the peace commission  
for the following purposes:

1. To obtain as large autonomous  
rights for the Filipino people as possi-  
ble.
2. To bring about peaceful relations  
between the insurgents and the Ameri-  
can authorities.
3. To insist that Americans and Fili-  
pinos shall occupy public offices.

Arevalo, former aid to Aguinaldo, is  
now in Manila, and said in an interview  
if the Americans send emissaries to  
Aguinaldo now, he thinks a peaceful so-  
lution of the troubles is probable.

Influential Americans think a commis-  
sion of rich Filipinos, eager to protect  
property, will have some influence with  
the insurgents.

A number of prominent and wealthy  
Filipinos are organizing a committee to  
take steps to bring about, if possible, an  
understanding between the rebels and  
Americans. One branch of this com-  
mittee intends to ask the United States  
Philippine commission to make a state-  
ment as to what terms will be offered  
the rebels to surrender.

Another branch of the committee will  
approach Aguinaldo with terms and  
will endeavor to persuade him to accept  
them. It is considered doubtful, how-  
ever, if any member of the committee  
dare to personally confer with the rebel  
leader. The committee includes several  
persons recently condemned to death by  
Aguinaldo for petitioning him to cease  
fighting.

Major General Otis has appointed a  
board, headed by Colonel Crowder, to  
deal with the war claims. Many such  
claims have been filed, aggregating mil-  
lions of dollars, particularly as a result  
of the Iloilo fire. Major General Otis,  
who has hitherto handled these claims,  
is unable to devote any of his time to  
them now.

General Lawton has ordered Colonel  
Whalley of the Washington regiment,  
who is a lieutenant in the regular army,  
to command General King's brigade  
during the latter's illness.

### FILIPINO DRINKS.

Special Prepared Beverages at Manila  
Causing Much Alarm.

Washington, April 18.—Among the  
serious problems confronting General  
Otis at Manila, none has caused greater  
agitation than the alarming effects pro-  
duced upon American soldiers, particu-  
larly the enlisted men, by a seductive  
beverage which they procured in native  
shops and which produced such phys-  
ical and mental demoralizations as to  
give rise to a suspicion that the army  
of occupation was being systematically  
drugged or poisoned to render them  
helpless to resist an insurgent attack.

This native drink was generally  
known as vino. It was exceedingly pal-  
atable and inexpensive, but a single  
drink of it unfitted a soldier for active  
duty for the succeeding 24 hours while  
frequent potations sent the soldier to  
the hospital for a long period of illness.

When the source of trouble was dis-  
covered, General Otis was disposed to  
prohibit the traffic in vino altogether  
and to that end referred the matter to  
Gen. Hughes, provost marshal general  
of the city, with a request for sugges-  
tions looking to a practicable course of  
action. General Hughes investigated  
the trouble and his recommendations  
have been followed.

As long as the city was crowd-  
ed with troops the vino industry, unre-  
stricted, was exceedingly lucrative, but  
now that most of the Americans are in  
the field, practically all the shops at  
which it had been sold are closed. Gen.  
Hughes' indorsement on the case was as  
follows:

"I have avoided all discussion of this  
subject until I have sufficiently inform-  
ed myself of the actual facts, and while

my information is not yet as full and  
complete as I should like to have it, still  
I feel that I hazard nothing in what is  
stated below.

"There are quite a number of articles  
on sale at the shops in this city that are  
about the same thing. They are a whit-  
ish liquor and usually flavored and  
sometimes tinted by some innocent ele-  
ments. They are called numerous  
names—anisado, vino beno, Scotch  
whiskey, etc. The base of all of them  
is simply alcohol.

"Commercial alcohol is manufactured  
here extensively from the refuse of the  
sugar houses. It is very pure and  
strong, and can be sold at a price that is  
far below that at which any other intox-  
icating drink can be produced. The  
wine venders take this alcohol of com-  
merce and dilute it, perhaps add a cheap  
flavoring, may be an innocent coloring  
element, and sell it under any name they  
see fit to bestow upon it.

"Now are we expected to sweep alco-  
hol from the list of manufactures in or-  
der to prevent a few ill-controlled men  
from getting drunk? These men want  
alcohol, and in this form they can get it  
stronger and cheaper than they get it  
in beer, and so they elect to take it. The  
natives take it, but in moderation and  
with discretion, and we have no trouble  
with them on account of it whatever.  
The police are instructed to endeavor to  
suppress the sale of these strong alco-  
holic drinks to our soldiers and persons  
found selling them to American soldiers  
have their permits revoked.

"There are occasionally shops that get  
fruit alcohol and put it on sale as a be-  
verage. This material is apt to produce  
a very delicious or confused condition.  
Whenever such shops are found the  
police are to withdraw the license from  
the place. If commanders will be care-  
ful to report the places where men have  
obtained the drink which produces the  
effect mentioned, it shall be the effort  
of this office to take such measures as  
will prevent a recurrence. It has oc-  
curred to me that local commanders  
might do much themselves to control  
their men. A plan which commends  
itself to me would be somewhat as  
follows:

"Observe the shops in their vicinity  
where their men get alcohol and where  
they loaf. Declare in orders that such  
shops—designating them distinctively—  
are off 'bounds' of liberty, and by ar-  
resting and punishing these uncontrol-  
led men for nonconformity, much of the  
trouble might be dissipated. But this  
is a matter for the consideration of com-  
manders and is only given as a sugges-  
tion that might lead to a better con-  
dition of things."

### Indian Fighting Regiment.

San Francisco, April 18.—The Twen-  
ty-first infantry, the famous Indian  
fighting regiment of earlier days, and  
later very active participants in the Cu-  
ban campaign have departed for the  
Philippines on the transport Hancock.  
The Sixth United States artillery has  
also arrived here and will sail on the  
Warren.

### Started for Manila.

Columbus, O., April 18.—A detach-  
ment of 267 recruits left Columbus bar-  
racks Monday for San Francisco, whence  
they will sail for Manila. Over 600  
have left here within the past two days.

### Advices from Klondike.

Victoria, B. C., April 18.—Men just  
arrived from Klondike say the Yukon is  
already breaking up and flooded from  
Marsh lake up. A party of four men  
went through the ice near White Horse  
April 2 and were drowned with their  
dogs. While a party was crossing Sum-  
mit lake last Saturday John Deland  
went through the ice and was only re-  
scued with difficulty. Grave anxiety is  
expressed for those now on the trail.

Tangle titles are reported from Atlin,  
where many Americans located claims  
last year, only to be ousted by the pas-  
sage of the antialien law.

During the winter claim jumping by  
the wholesale has been progressing and  
there are now three or four disputants  
to every claim on Spruce and Pine  
creeks.

Some Americans are taking British  
partners to hold their properties.

### Prince Konoye at San Francisco.

San Francisco, April 18.—Among the  
arrivals on the steamer Coptic was  
Prince Konoye, president of the Japane-  
se chamber of peers, who is on his way  
around the world on a trip of inspection  
and investigation. Prince Konoye denies  
there is anything in the voyage but a  
visit to the great capitals.

As to the condition of China, Prince  
Konoye said the Japanese looked on  
with determination, and to preserve in  
the integrity of the empire if possible,  
but in case there be a partition, there  
should fall to Japan a good share of the  
country, so it might be opened under  
Japanese auspices.

The relations of his country with  
Russia, were, he said, quite satisfactory.

### Instruction to Consul Rose.

Berlin, April 18.—The correspondent  
here of the Associated Press hears from  
authority that the German consul at  
Apia, Samoa, Herr Rose, will receive  
cable instructions to be conveyed to him  
by steamer from the nearest station to  
join in the tripartite proclamation call-  
ing upon all the inhabitants of Samoa  
to immediately desist from all hostili-  
ties and agitation, pending the arrival

### The Nashville Goes to St. Louis

St. Louis, April 18.—The United States  
gunboat Nashville, which fired the first  
shot in the recent war, has been ordered  
to proceed up the Mississippi river to  
St. Louis. The river marks 15 feet at  
the highest point and river men agree  
that this stage will be maintained for  
some time. The Nashville draws about  
14 feet and will have no difficulty in  
coming this far up the river. Mayor  
Zeigheim will declare the day the  
Nashville arrives a holiday and the offi-  
cers will be entertained by the city and  
a general demonstration held.

## THE TEXAS RAILWAY CLUB

Entertained at the A. and M.  
College Yesterday.

## OUR MAYOR'S 3-HOUR SPEECH

That Would Not Fit the Occa-  
sion.—A Pleasant Visit.

The following programme for  
the entertainment of the Texas  
Railway Club was well carried out  
at the A. & M. College yesterday:

- 12 m.—Dinner.
- 1 p. m.—Reception of club at Assembly  
Hall.—Address of welcome.—Res-  
ponse.—Speeches by members of  
the club.—Music by College band.
- 2:30—Visit to machine shops and civil  
engineering department.
- 3:30—Visit to departments in Main  
Building.
- 4:30—Visit to agricultural department,  
barns and dairy building.
- 5:30—Exhibition drill and dress pa-  
rade.
- 6:30—Reception to ladies of the club at  
president's residence.
- 8 o'clock—Supper.
- 9:30—Complimentary hop.

The club arrived at 12 o'clock,  
sixty strong, in charge of Superin-  
tendent J. M. Lee of the H. & T.  
C. railway and Jeff N. Miller, chief  
clerk of the vice-president of the  
H. & T. C. They were met by  
President Foster and the corps of  
cadets, with the college cadet band

and escorted straightway to mess  
hall for dinner.

Welcome exercises were impres-  
sive, cordial and entertaining. The  
rostrum was banked with flowers,  
and the beautiful assembly hall  
never resounded with words of  
more hearty greeting, with respon-  
ses more elegant and fitting. On  
the rostrum were seated officials of  
the Railway Club, the president  
and faculty of the college, Mayor  
Adams of Bryan, and other visitors.

Mayor Adams introduced Presi-  
dent Foster, and took occasion to  
say that had the Club met in Bry-  
an according to original plan, they  
would have found him ready with  
a speech three and a half hours  
long to say to them, but that not  
a word of it would fit on this occa-  
sion.

President Foster's welcome ad-  
dress contained words of hearty  
appreciation of the Railway Club-  
men's great life work, and he took  
pleasure in bidding them welcome  
to this institution, where he hoped  
they would find much to interest  
them. He reviewed the history of  
the college for twenty-two years;  
told the purpose of its work,  
elaborating its different features.  
He called attention to the record  
of graduates of the institution in  
the different walks of life they had  
chosen. The metaphorical key to  
the gates of the little educational  
city was duly thrown away, and a  
most pleasing and deferential wel-  
come was extended. He presented  
to the president of the Club a gavel  
made by students of the college.

The response to the address of  
welcome was by D. B. Stanciliffe,  
editor of the Texas Railway News.

President A. S. Grant, who is  
master mechanic of the Houston,  
East and West Texas railway de-  
livered an address to the students.  
In it he took occasion to thank  
them for the gavel and promised he

## PRaises His Men.

Major General Lee Lauds Soldiers Under  
Him During the War.

Havana April 17.—The last general  
order issued by Major General Fitz-  
Hugh Lee to his command, the Seventh  
army corps, is, in part, as follows:

"An order has been received which  
moves the last regiment of the Seventh  
army corps across the sea to be mus-  
tered out of the service of the United  
States, and the ranks of its organization  
will be forever broken. The record made  
by the officers and men, however, will  
be forever preserved on the pages of the  
military history in which their country  
will inscribe their deeds. No troops  
have won a greater reputation for dis-  
cipline, drill, manly discharge of duty,  
soldierly conduct and cheerful obedience  
to all orders.

"The president's assurance that had  
war with Spain continued the Seventh  
army corps would have been selected to  
lead the assault on the Havana lines  
proves that the corps possessed the con-  
fidence of the commander-in-chief of  
the army and navy, a confidence  
shared by his fellow countrymen.

"It is gratifying in reviewing the ca-  
reer of the corps to remember the har-  
mony which has existed among the 40,-  
000 soldiers who answered the rollcall  
at Tampa, Jacksonville, Savannah and  
in Cuba, whether it were the volunteers  
who afterwards, at various times, broke  
ranks and resumed the duties of citizen-  
ship, or the regulars whose standards,  
still flying, are now the advance senti-  
nels of American progress and civiliza-  
tion. The soldiers of the north and  
south took the sunshine and storm of  
camp together and marched side by side  
under one flag, in one cause and for one  
country."

Major General Brooke, the governor  
general of Cuba, has approved the plan  
of the Cuban General Montegudo, to  
establish in Santa Clara a rural guard  
of 500 men with Montegudo as its  
commander and Colonel Consuegra as  
second in command.

It is announced that a London syndi-  
cate will purchase the Sagua, Cabarrien,  
Cardenas and Sabanilla railroad. This  
will put all the island railways, except  
three small lines, in British hands.

Commodore Cromwell, captain of the  
port of Havana, is settling the lighter-  
men and shipowners dispute in a sat-  
isfactory manner.

## Chicago Going Abroad.

New York, April 18.—The cruiser  
Chicago has sailed on her first important  
voyage in nearly four years. A cruise  
of 22,000 miles is to be made under Rear  
Admiral Howison.

The Chicago will go first to the Az-  
ores, then to Gibraltar where a stop of  
ten days will be made. Thence through  
the Mediterranean sea to Malta and  
Cairo. The cruiser will pass through  
the Suez canal down the eastern coast  
of Africa to Johannesburg and Cape  
Town. A stop will be made at St.  
Helena. It is expected that the Chicago  
will return next October.

## More Troops from Cuba.

Savannah, April 18.—The transport  
Thomas has arrived at quarantine with  
the Thirty-first Michigan regiment and  
one battalion of the Third engineers  
from Cienfuegos on board. The trans-  
port Havana has also arrived with two  
additional battalions each of the Third  
and Second engineers from Havana and  
Matanzas. The Michigan troops will be  
sent to Augusta and the Third engineers  
to Atlanta for muster out.

## Eight Choctaws Arrested.

Antlers, I. T., April 18.—Deputy mar-  
shals have brought eight Choctaws here  
and put them in the Antlers jail, charg-  
ed with being accessories in the killing  
of three persons and wounding of an-  
other on Friday, near Cold Springs,  
eight miles west of Grant. A great  
deal of sickness of a peculiar type has  
prevailed in the neighborhood for sev-  
eral months and it was believed that the  
persons killed had bewitched the In-  
dians and by killing them the plague  
would be removed. Disorder has pre-  
vailed in the neighborhood for three or  
four days.

## Constable Shot by a Negro.

Clarksville, Tex., April 18.—While at-  
tempting to arrest Ernest Kendall, col-  
ored, charged with burglary, Constable  
Lewis Ellett of this precinct was shot  
twice and dangerously wounded. The  
party was concealed in a thicket and  
when the officer rode up three shots  
were fired, two of which struck Ellett,  
one in the breast and one in the upper  
part of the intestines. The officer re-  
turned the fire, but the party escaped.  
Kendall was captured later and taken to  
Paris on account of the excitement.

## Verdict for Fifty Dollars.

Weatherford, Tex., April 18.—In the  
damage suit of Mattie L. Walker vs.  
Lee Walker, asking for \$7500, the jury,  
after being out quite a while, returned  
a verdict for \$50 in favor of plaintiff.  
This is the case where the sister sued her  
brother for \$7500.

## Knights of Pythias at Dallas.

Dallas, April 18.—The grand lodge of  
the Knights of Pythias of Texas convenes  
in the auditorium of the city hall to-  
day. From 600 to 800 Pythians will  
visit the city while the grand lodge is in  
session.

## Blizzard in Dakota.

Deadwood, S. D., April 18.—For the  
past 36 hours a blizzard has been raging  
in all parts of the northern hills. The  
snow, driven by a fierce wind, is blind-  
ing. The weather is not cold.

## The Morphine Route.

Noblesville, Ind., April 18.—The Hon.  
R. R. Stephenson, ex-judge of the Ham-  
ilton county circuit court, died here  
from an overdose of morphine, taken  
with suicidal intent.

### FROM COTTONWOOD.

The weather continued fine until the last few days it has been trying to rain.

Some of the people met at Cottonwood Sunday and organized a Sunday school. The writer has not learned who were elected officers.

There will be preaching next Saturday night and Sunday at the Christian church by Rev. Sewell.

Death visited our community last Thursday evening and chose a shining mark for its victim, Mrs. Tommie Gallatin. She left a husband and five children and three step children and a host of friends and relatives to mourn her loss. She was laid to rest on Friday evening at Bickham graveyard. We extend our sympathy to the bereaved family and friends.

Mesdames Wells and Stafford of Bartlett, came down Friday to attend the burial of their sister, Mrs. Gallatin, and returned home Saturday.

We were glad to see so many letters from the people in last weeks paper. Hope they will continue to write.

Next Sunday evening is our regular singing evening. All who wish to come and help us sing are invited to do so.

### To Whom it May Concern.

I have this day changed my name from Harry Marwilsky to Harry Marwill by action of the District Court of Bryan, Brazos County, State of Texas.

### THAT SWISS TREATY.

It Will Have to Be Revoked or Extended to All Countries.

Washington, April 18.—As a result of the United States granting to Switzerland the small commercial privileges accorded to France under the reciprocity agreement with the latter country, several European and South African nations have demanded that like privileges be allowed to them. So dangerous to the commercial interests of this country has become this Swiss treaty under which Switzerland is entitled to the benefits obtained by France under her agreement with the United States, that it was stated that it had become necessary to formally denounce it, such denunciation to take effect early in 1900. The treaty provided that "each of the contracting parties hereby engages not to grant any favor in commerce to any nation, union or nations, state or society which shall not immediately be enjoyed by the other party."

Before Germany or any other of the nations desirous of obtaining the privileges granted to Switzerland can receive them they will be required to make reciprocal compensation to the United States. The matter is of considerable importance, especially as it is the expectation of the state department that before the expiration of the period in which treaties of reciprocity can be made, several instruments will have been signed and Switzerland, during the life of her treaty, will have to be given the privileges thus granted to other nations.

### ATTACKED BY CHINESE.

British Camp Assaulted, but Repulsed the Enemy Without Loss.

New York, April 18.—A dispatch from Hong Kong says thousands of Chinese advanced toward the British camp at Taipoh Monday and fired several rounds of artillery at an ineffective range. Major General Gascoigne, whose forces are less than 300, ordered the Asiatic artillery to engage the enemy who occupied the surrounding hills. Shrapnel drove the Chinese out and as the Indian infantry advanced, the Chinese retired several miles, burning the villages. The Chinese loss is unknown, as they carried away their dead and wounded. The British had no loss. It is proposed to advance the British position. With the exception of his staff, General Gascoigne was utilizing only the Indian troops. Hong Kong is guarded by volunteers and Welsh fusiliers.

### American Canned Meat Bad.

Berlin, April 18.—The debate on the meat inspection bill continues in the reichstag. Dr. Veil Haben, of the Reformed party, charged the Radicals with placing their services at the disposal of American meat contractors, when he was called to order by the president. Continuing Dr. Veil Haben said American canned meats were bad, that Americans adulterated their food products enormously, adding that the German army and navy should be protected more than hitherto against tainted foreign meats.

### Serious Runaway Accident.

Lockhart, Tex., April 18.—A very serious accident happened here, in which Kate, the 8-year-old daughter of John T. Storey, was seriously if not fatally hurt. The three children of Mr. Storey were driving when the horse became frightened and ran with the vehicle, throwing the children out. Little Kate lodged between the fender and the wheel of the carriage, and was carried some distance in this position, receiving serious injuries about the head.

### Puerto Principe Quiet.

Puerto Principe, Cuba April 18.—This province is perfectly quiet and there has not been a scene of any disturbance.

There is considerable typhoid fever among the Eighth United States cavalry, but a majority of the cases are convalescent. The Fifteenth United States infantry has not suffered.

Owing to lack of funds it is impossible to do much sanitary work in this city and as result the sanitation is very bad.

### Beef Court Inquiry.

Washington, April 18.—The beef court of inquiry spent sometime behind closed doors in an effort to agree upon a plan of bringing the inquiry to a close. Major Lee was present a part of the time in behalf of General Miles. He made a plea for summoning a number of additional witnesses and the conference ended without reaching any conclusion.

### The Balcony Gives Way.

Cagliari, Island of Sardinia, April 18.—While the king and queen of Italy were starting for Sassari, about 60 miles from here, in order to meet the British fleet, which is expected in the gulf of Sassari, a balcony filled with schoolgirls collapsed a 14 people were injured and one man killed.

### Considering Extra Session.

Washington, April 18.—The president is considering an extra session. It will probably be called for Sept. 1. Three important matters demand early attention.

### Killing Near Grapeland.

Grapeland, Tex., April 18.—Twelve miles west of here H. M. Sullivan was shot and instantly killed. A man named Lawrence went to Crockett and surrendered.

### Case of Smallpox.

Mexia, Tex., April 18.—There is a case of smallpox at Tehuacana, six miles from here, the victim being a student at Trinity university.

### Left Arm Cut Off.

Palestine, April 18.—James Hussey, a bridleman, while boarding a freight train at this place, fell and had his left arm cut off above the elbow.

## NO HOPE FOR THE BILL NOW.

The Arkansas-Texas Antitrust Measure Is a Dead Letter.

### THE PEOPLE OPPOSE TO IT.

Telegrams from Home to Lawmakers Cause a Change in Legislators' Actions.

### FEW HAD READ THE BILL CAREFULLY.

All Read and Studied it After Receiving Protests and It Is a Conceded Fact That it Will Never Pass.

Austin, April 18.—Had it been possible for the Arkansas antitrust law, introduced in the Texas legislature last week, to have come up for action it would have been passed without much opposition, but now there is not no hope of it getting through the present legislature.

There has been a decided change in the lawmakers on this bill. The members of the house and senate have heard from home and their countenances are different from those they wore even on Sunday.

Telegram after telegram was delivered to legislators yesterday, sometimes coming two, three, four and five at a time. They were from the districts they represented and all were protests against the passage of the Arkansas antitrust law.

Some of the telegrams asked that the members vote against the measure because it would drive the insurance companies from the state and cause disaster in commercial circles, while others appealed for a hearing before the committee.

The effect of these telegrams was most telling. In a very short time all the members were asking for the bill that they might read it.

In the senate, if the fight should be made, it can be spun out indefinitely. It requires in that body a two-thirds vote to take up a measure out of its regular order, which, with a call of the senate for absentees and other dilatory tactics, there is no telling when it can be reached.

In the house the only chance as appears at present for the bill to be considered is for the senate to pass it and send it over as a senate bill.

The senate made three attempts yesterday to transact business, but could not muster a quorum.

The house spent the forenoon on the general appropriation bill, but made but little headway with the measure.

The bill providing for the election of public weighers in justice precincts was passed after reducing the yard fee from 25 to 15 cents.

Several other bills of little importance were passed and some measures killed by postponement indefinitely or by striking out their enacting clauses.

### Chris Sues for Damages.

St. Louis, April 18.—Chris Von der Ahe has filed suit in the circuit court for \$50,000 damages against Frank Robinson and Edward C. Becker, the new owners of the St. Louis baseball club. Every club in the national league is also made a party to the suit and \$25,000 damages is asked from each one of them. The chief allegation in the petition is that a combination existed in the league to forfeit the membership of the Sportsman's park and club for the pecuniary profit of the defendants.

### Charged With Swindling.

Houston, April 18.—Sheriff R. M. Glover of Gonzales and C. Cain of the Wells, Fargo & Co. express passed through the city en route to Gonzales, having in charge Abe Rothchilds, who is wanted on a charge of swindling. Rothchilds was brought from Indianapolis, Ind., where he was in jail, but the authorities there turned him over to the Texas sheriff.

### Liggett & Meyers Sell Out.

St. Louis, April 18.—The sale of the Liggett & Meyers Tobacco company has been completed and the property formally turned over to the purchasers, ostensibly W. H. Butler and the Union Tobacco company, but it is admitted by persons connected with the deal that the American Tobacco company is the real purchaser. The purchase price was \$12,500,000.

### A Negro Jurymen.

Corsicana, Tex., April 18.—On the panel of jurymen in the district court for this week is Gus Colbert, a negro, who was drawn in the usual way and who was sworn in by Judge Cobb, along with the others of the panel. This is an unusual thing in Navarro county and the dakry is viewed as a curiosity by the crowd of court house frequenters.

### Fatal Duel in Tennessee.

Clarksville, April 18.—As a result of a street fight with pistols Bud Riggins lies mortal wounded and Gus Moody's chance to live is slight. They are both men of good standing. The fight is the outcome of an old business trouble.

### DIPLOMATIC CHANGES.

Minister Rockhill to Greece Resigns, Causing Several Changes.

Washington, April 18.—The following diplomatic changes have been announced as a result of a cabinet meeting:

W. W. Rockhill, now minister to Greece, has resigned that post.

A Sherburn Hardy of New Hampshire, now minister to Persia, has been promoted to succeed Mr. Rockhill.

William P. Lord, ex-governor of Oregon, has been appointed minister to Persia.

Hon. John N. Irwin of Iowa, formerly governor of Idaho, has been appointed minister to Portugal to succeed Lawrence Townsend, transferred to Belgium in place of Belamy Storer, who goes to Madrid.

The cabinet meeting was devoted entirely to the consideration of the Cuban debt question. Some objections were raised to Secretary Alger's plan for a general extension of one year and a commission to settle further extension and he requested a revise order so as to provide straight extension for three years without complicated details. Interest rates will not be changed.

### THE TEXAS MAY GO.

Will Be Sent to the Pacific Should Another Battleship Be Needed.

Washington, April 18.—Orders have been issued by Secretary Long to the cruiser Marblehead to accompany the Newark to the Pacific ocean as a member of Rear Admiral Kautz's command. It is the understanding the Texas will be placed in such a position that she will be readily available for duty in the Pacific if her services are required.

Orders to the Marblehead are not due, the officials say, to developments in the Samoan situation. They explain that the Pacific station covers a great area of territory and that the ships now attached to it are inadequate to attend to the many calls made upon them.

The German squadron in Asiatic waters is not much larger than the force which this government proposes to station on the Pacific coast, while that under Admiral Dewey is superior.

Orders have been given to the gunboat Marietta to make a survey of the mouth of the San Juan river and the Gulf of Para.

### Receiving Instructions.

Washington, April 18.—Bartlett Tripp, United States representative on the Samoan commission called at the state department and was closeted with Secretary Hay. He also conferred some time with Third Assistant Secretary Crindler, who has been particularly in charge of Samoan negotiations, he then accompanied the secretary to the White House where he was introduced to the president. The department is adding the finishing touches on written instructions which will be supplied Mr. Tripp, but in addition to these he was made fully acquainted with the views of the president and Secretary Hay respecting the proposed work of the commission.

### MISS TUCKER MURDERED.

Her Body Was Horribly Mutilated and Tramps the Supposed Murderers.

Chataanooga, April 18.—The horribly mutilated remains of Miss Adelaide Tucker, a well to do aged woman, who lived alone on Lookout mountain has been found at her residence. It is supposed two tramps who were seen about the house several days ago committed the murder for the purpose of robbery, as the woman was said to have had considerable money in her possession.

### Preparing for Baptist Societies.

San Francisco, April 18.—The local Baptists are making extensive preparations for the reception of 5000 people who are expected next month to attend the annual meeting of the National Baptist societies. The celebration this year is the golden jubilee for it is 51 years in July since the work of the Baptist began on this coast. The meeting opens on June 24 and will close on June 1. Many leaders of that denomination will be here and it will be the first reunion of Baptist west of Denver.

### Special Train to a Wedding.

Chicago, April 18.—A special train made up of 7 private cars, 1 compartment car, 1 sleeping car and 1 dining car, left Chicago this evening to carry to Memphis a number of railway officials who will attend the wedding of Miss Mary Mallory of Memphis and Vice President J. T. Harahan of the Illinois Central railroad, whose home is in Chicago. The Illinois Central road will be represented by several officials, among whom is President Stuyvesant Fish.

### Killed His Son and Suicided.

Fairmount, W. Va., April 18.—At Teverbaugh, Elsa Matthews committed the unnatural crime of killing his six-year-old son and then committing suicide. He and his family had been spending the day with his wife's parents and in the afternoon started to take a walk with the boy. He had not gone far until he drew a razor and cut the child's throat and his own. Matthew's mind had been affected and he had been for some months in the asylum at Weston.

### Avenge His Sister's Wrongs.

Bedford, Ky., April 18.—Samuel Abbott, a soldier of the First artillery, summarily avenged his sister's wrong by shooting Thomas Craig at Wise's Landing. His sister had given birth to a child, and Abbott and his brother compelled him to marry her. Ward Abbott afterward heard Craig say that he could not compel him to support her, and the next time Abbott met Craig he shot him to death and then gave himself up.

## The Most Liberal Policy

EXTANT. EQUALED NOWHERE!

Not Approached by the Contract of any other Company.

On March 8, 1899, the PENN MUTUAL LIFE INSURANCE COMPANY made a radical departure. While retaining all of its great variety of plans of life insurance and, for the purposes of securing full information in order to judge of the acceptability of applicants, adhering to its present forms of proposals, it decided upon the issue of any one of its contracts of insurance it would immediately endorse thereon the following:

"This Policy is Absolutely Incontestable from date of issue for any cause except non-payment of premium, anything in this contract to the contrary notwithstanding."

While the Company will scrutinize carefully all applications, yet once agreeing to accept a risk, it is accepted in its entirety, wholly and irrevocably, without provision or condition, except the payment of premium.

The endorsement which it now puts upon its policies is not limited to a special class of insurers or to a few special forms of contract. All good and acceptable risks are treated alike, thus preserving a proper mutuality. No one is asked to forego his dividends—they may be used in reduction if he desires; no one is put into a special class; no invidious or unjust distinction in the membership is permitted. The contract of life insurance is so broadened and liberalized that it is a simple and inviolable promise to pay at a given date, or upon death, and NOTHING IN LAW OR EQUITY OR CIRCUMSTANCE OR CONDITION CAN POSSIBLY DEFEAT IT. It is the crystallization of the idea expressed in the few words: "You pay us; we pay you." It is freer from conditions than a bond of the United States, and is as unfailing security.

The effect of the above endorsement upon the policies of the Penn Mutual is to make them a world-wide contract, free from all conditions as to residence, occupation, travel, habit of life, and as to manner, time or place of death. It is the ultimate in life insurance, for no contract can possibly go any further than to be an unconditioned promise to pay.

Without any increase in premium, or without any stipulation as to the use of dividends, the policies embrace:

First—Automatic extension—the longest.  
Second—Paid-up insurance—the largest.  
Third—Cash or Loan Values—the most liberal.  
Fourth—No conditions as to residence, occupation, suicide, dueling, violation of law or military or naval service.

Fifth—While absolutely incontestable for any cause, except non-payment of premium, they provide for immediate payment upon receipt and approval of proofs of death; for reinstatement in case of lapse at any time; premiums are accepted within thirty days of the date due, if the insured is in good health; notes are accepted in settlement; every possible consideration is shown the insured.

Sixth—While the policy itself is the complete contract, a copy of the application is furnished for the information of the insured.

Nothing has heretofore been done in life insurance which will command such world-wide attention and instant approval. It shows that the PENN MUTUAL has reached the goal toward which others are sauntering, and far in advance of all its competitors.
